QUALITIES

Team Work

Self-Motivation

Punctual

A highly motivated software engineer student passionate about ReactJs and related technologies. I am seeking a challenging and rewarding entry-level position in the tech industry.
Sound knowledge of HTML, CSS, JavaScript, and Bootstrap for creating visually appealing and responsive web interfaces.
Also good knowledge of ExpressJs, MongoDB, and JWT.
Effective communication skills, enabling collaborative teamwork and clear articulation of ideas.

EDUCATION

University Of Karachi   (February 03, 2021 - Present)
Bachelor of Science, Software Engineering

Govt. Delhi College   (April 05, 2018 - May 19, 2020)
Intermediate, Pre-Engineering

PROJECTS

Weather Application   (February 17, 2023 - February 19, 2023)
Made With ReactJs and Bootstrap

The Live Weather App built on ReactJS provides real-time weather information, including temperature, wind, min-Temp, max-Temp, Feels Like, and humidity. The app also features a user-friendly interface.

Textutils-App   (January 02, 2023 - January 07, 2023)
Made With ReactJs

It's a textutils app which is created on reactJs. Here you can perform many utilities on text like you can change your text to uppercase, you can change your text to lowercase, you can copy text, you can find something in your text and in the last you can also clear all your text. Textutils app also have nice alert effect when you click on any utility.

CRUD with JWT(Authentication)   (March 01, 2023 - March 06, 2023)
CRUD Application made with ReacJs, ExpressJs and MongoDB.

A live CRUD (Create, Read, Update, Delete). In this case, the CRUD app is built using ReactJS for the frontend, ExpressJS for the backend, and MongoDB for the database. The app also has JWT (JSON Web Token) authentication, which is a widely used standard for secure authentication and authorization of web applications.
